PROJECTS

Speaking in Motifs: UX/UI & Interactive Experience

Designed an interactive web experience exploring cultural architectural motifs through user research and interaction design. Developed an intuitive interface to communicate cultural information and encourage user participation, refining the experience through prototyping and user-centered design.

After Hours: Human-Centered Design

Pitched and won a human-centered design project focused on improving collaboration among VCU Graphic Design students; conducted user research to identify barriers to collaboration and translated findings into a collaborative workspace concept and design system.

VOLUNTEER

Muslim Student Association
— Assisted with facilitating and distributing materials to guests during large-scale events with around 200 attendees; contributed to smooth and successful event operations.
